

Fellow Business Owners,

Our CPA introduced us to Jodi Nielsen with CSSI. We understood the great tax benefit that her engineered base firm could provide us with doing a Cost Segregation Study.

The process was handled very professionally, and the results came out way above expectation.

This is definitely a study you should look at having performed if you own a building. They provided us with the no charge analysis, so we were able know what Cost Seg. tax benefit to expect.

We also took advantage of the 179D study she provided, which was another great tax deduction.

I would use Jodi again and highly recommend her services.

Warm Regards,

Toby Fuerst CFO
