Dear Jodi,

Dave and I are very pleased with the results we received as a result of having your company, CSSI perform a Cost Segregation Study. You were referred to us by another colleague who recommended we take advantage of this additional tax benefit.

The results are in excess of your original projection which is a bonus.

Based on our experience, anyone owning a building, or looking at buying a building, should be encouraged to have you (Jodi Nielsen) and CSSI run a No charge/No obligation analysis on the property. We were able to see what our tax benefit will be, the reasonable cost of the study and then justify having the study done.

We were also pleased to work with a reputable Engineering based company that has been around since 2001 performing over 20,000 studies. Based on our experience, we will continue to recommend you and CSSI.

Thank you,

Barry Bosold
